Find The right audience

This technique is all about choosing the right audience and then selling the product directly to them. I would recommend you do this step for every offer you promote.

- 1) Let us choose an offer that is hot. As an example, I've chosen one from the insurance niche (all insurance offers are very popular):

- 2) Let us make sure that “insurance” receives a decent amount of traffic. Go to Google Insights <http://www.google.com/insights/search> and type in “insurance” or whatever niche or product you have chosen to promote.

As you can see, people are interested in insurance.

Let us identify our targeted audience. Go to <http://www.quantcast.com> and type in your CPA offers domain name. The following example is not in clicks2offers, it is just for informational purposes.

Then on the left side click on “Demographics”:

And voila now we know who our targeted audience is.

Now if Quantcast is right, our targeted audience is: Caucasian females (in this case, I would also target the male population), 50+ years old.

What next?

Next we try to find the places where we can market our offer. Based on Quantcast's data, my guess would be:

- a) Family type forums
- b) Forums for people over 50
- c) Technology forums
- d) General discussion forums
- e) **Women's forums**
- f) Music and technology blogs
- g) Groups on Facebook or MySpace
- h) Twitter

There really are A LOT of places where you can promote your offer.

Find 5-15 different forums, blogs or groups on Facebook (or other social networks) and start promoting your offer(s) there.

YouTube Comments

This technique is easy and effective at the same time. Your task is to get your comments "thumbed up" and get noticed by the public. Here are the things you will need:

- 1) 10 different YouTube accounts
- 2) A very short domain name that redirects to your affiliate link
- 3) A CPA offer that requires an email submit
- 4) A YouTube video that is either popular or gaining popularity

That's basically it. Now let us go through the steps:

1) Creating 10 different YouTube accounts:

Next, create 10 accounts. I've managed to create 13 separate accounts, before Google asked me for my phone number. If you aren't so lucky, ask your friends to create YouTube accounts (what are friends for, right?).

Uploading materials that you do not own is a copyright violation and against the law. If you upload material you do not own, your account will be deleted.

By clicking 'I accept' below you are agreeing to the [YouTube Terms of Use](#), [Google Terms of Service](#) and [Privacy Policy](#).

2) Getting a very short domain name:

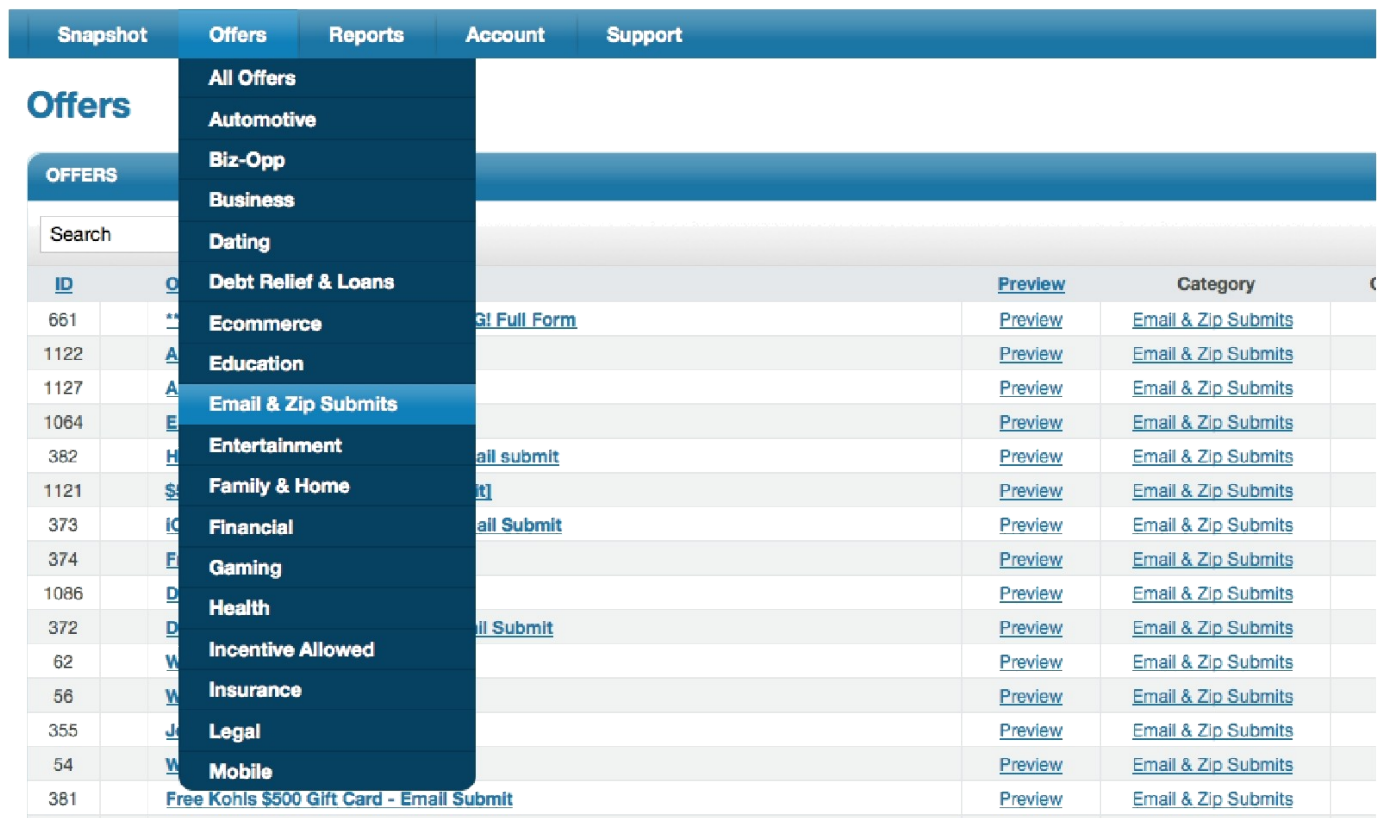

In my opinion, this step is very important. As we all know, YouTube doesn't allow URL's in the comment section, and that's why we want a short and catchy domain that people will want to type in their browsers. It can be a .info domain, which will redirect to your CPA offer (I would recommend to get .com, .net, .org domains).

A good domain would look like this: www.m87.com, www.Tech15.com, www.t5h.net, etc.

You could use URL shorteners, although I do question their effectiveness.

3) A CPA offer that requires an email submit

Lets find an offer that we would like to promote

The screenshot shows a dashboard with a navigation bar containing 'Snapshot', 'Offers', 'Reports', 'Account', and 'Support'. The 'Offers' section is active, displaying a list of offers. A dropdown menu is open over the 'Offers' section, listing various categories: All Offers, Automotive, Biz-Opp, Business, Dating, Debt Relief & Loans, Ecommerce, Education, Email & Zip Submits (highlighted), Entertainment, Family & Home, Financial, Gaming, Health, Incentive Allowed, Insurance, Legal, and Mobile. The offer list below has columns for ID, Offer Name, and Category. The 'Email & Zip Submits' category is selected, and the list shows offers like 'GI Full Form', 'Email submit', 'Mail Submit', and 'Free Kohls \$500 Gift Card - Email Submit'.

ID	Offer Name	Category

Now let us choose an offer:

How to choose the right YouTube video

Here are some things you need to keep in mind:

- 1) The video has to be popular or gaining popularity
- 2) Never post comments with your main account (just in case)
- 3) Don't post comments on channels that are built around a famous brand (you will just get deleted)
- 4) Don't post comments on videos where the author actually replies to comments. We do not want to get noticed. Here is an example of what I mean:

Uploader Comments (**DetroitBORG**)

If i bought the ipad connection kit could i use the USB for other purposes such as putting my webcam in it?

libtaymoll 1 day ago

@libtaymoll No, the iPad can only do a handful of tasks with the USB adapter, and most of the time it doesn't have the driver support or power output to support most usb devices. And no, it can't use webcams.

DetroitBORG 1 day ago

it work with iphone 4? I mean sd card reader

menel321 4 days ago

@menel321 No, the iPhone 4 can't use it.

5) Do not be a Spammer. Seriously guys - don't be stupid and impatient. Do not post your comments on all videos involving "Iphone 4".

6) If you want to promote multiple offers, pick different niches.

7) Picking an unwinnable battle. Here is what I mean:

Highest Rated Comments

So if I read most comments correct... some of you don't like the phone, just because it is like what... 4 seconds??? slower then for example the Iphone? Seriously people.... This reminds me of Louis C.K. ("everything is amazing yet nobody is happy"). Come one... the phone would be bad if things are really not working at all. But i did not see that in the video.
If we are allready complaining about 4 seconds... we are all spoiled brats.

You will need a lot of "Thumbs up" to beat this. I would not choose a video that has comments with more than 20 "Thumbs up".

Forum Marketing

Before you start reading about Forum Marketing, go through the “Find the right audience” chapter. You can’t make money if you target the wrong crowd!

Ok, let’s say we have chosen an offer and identified our audience. All that’s left is to find a great forum to promote our CPA offers (If you don’t mind, I will continue with the ringtones offer).

- 1) Go to www.big-boards.com

The screenshot shows the homepage of Big Boards, a website dedicated to finding active message boards and forums. The page features a search bar, a forum directory with various categories, and a table of top-ranked forums. The search bar includes a 'go' button and a 'Free Digital Siganage' advertisement. The forum directory lists categories like Computers, Entertainment, Games, Recreation, Society, and Sports. The table of top forums includes columns for Rank, Board name and description, Posts, and Members.

Rank	Board name and description	Posts	Members
1	Gaia Online Anime roleplaying community	1877125786	23732410
2	4chan Japanese culture message board	650558341	62615
3	d7jsp Diablo 2 video game forums	342905056	613577
4	IGN boards General video gaming message boards	200298710	1255254
5	Nexopia Picture rating, sex and relationships forums	182602864	1424092
6	FaceTheJury Real life picture rating forums	165498296	552000
7	Jogos Brazilian games forum	142582510	186353
8	Offtopic.com General discussion forums	137364245	225586
9	Vault Network boards Role playing games discussion boards	124459305	626203

Now this is a great place to look for forums and message boards.

Here are some things you need to keep in mind:

- a) If your CPA offer allows only USA Traffic, then you need to search for a United States forum.

- b) Find forums that allow links in your signature.
- c) Find forums where people are active (look through the messages and check when the last post was created).
- d) Do not post any messages, and do not create a signature in your link on the same day as you register an account. The only thing you need to fill out is your information (address, hobbies, interests, your profile picture, etc). Start your marketing campaign on the next day. We want forum administrators to think that you are a legit member and not a marketer.
- e) Find multiple forums (the more the better) to promote your products. More forums = more money.

2) According to our research, our targeted audience is participating in music forums. Let's type in "music" and see what "Big Boards" will spill out.

- Nexus for pianos and brass, sometimes the soft arps.
- Korg Triton for the strings.
- Sylenth for the hard lead synths.
- Vanguard for the synths and arps, it has some crazy arps.
- Rapture for one delayed piano I like.
- Z3ta+ for a soft synth that's good for R&B, I get a lot of my lead synths from it too.
- Gladiator 2 for the lead synth, it's a real edgy synth that's good for hooks.

quote

Now all is left for you to do is to repeat everything I've shown you.

3) If you can't find a forum using "Big Boards". Go to Google and type in "your niche + forums".

And there you have it. Find 10-15 forums that you can participate in.

4) Now let us discuss what to put in your signatures. **NEVER** use the "Click on my link" or "Do not click on this link" models. They do not work and probably never will.

What you should write is something like this:

"Learn how I've downloaded 25 cool ringtones For Free".

Show your creativity!

In some cases you can put a banner in your signature. I wouldn't try that unless other members are doing it also.

Ok, now go and register on some forums!

Yahoo Answers

This technique will involve Yahoo Answers. Many people (including myself) have had a lot of success using this method and that's why I've decided to include it in this quick start guide.

What will you need for this to work:

- a) Patience
- b) A Wordpress Blog
- c) 10-15 Articles (PLR articles will work perfectly)

- 1) Go to <http://answers.yahoo.com>

The screenshot shows the Yahoo Answers homepage. At the top, there are navigation tabs: HOME, BROWSE CATEGORIES, MY ACTIVITY, and ABOUT. Below these are three main sections: 'Ask' with a search bar and a 'Continue' button; 'Answer' with a smiley face icon and a 'Browse Open Questions' button; and 'Discover' with a 'T' icon and a 'Browse Resolved Questions' button. A search bar is located below the navigation, with the text 'What are you looking for?' and a 'Search Y! Answers' button. The main content area features a 'Best of Answers' section with a question: 'Do you need to have flood insurance in a flood zone?' asked by Rob - Insurance. Below this is a list of recent questions under the heading 'Share what you know. Answer open questions.' with filters for 'Recent', 'Popular', and 'From my Network'. The questions listed include: 'Does anyone have any love song ideas?', 'Renting/Living in house?', 'How long is the present ? only a second or two perhaps ?', 'working part time and going self employed?', and 'NBA Season 2010/2011 Chicago Bulls vs Charlotte Bobcats live stream available?'. On the right side, there is a red banner and an advertisement for 'THE BEST PLACE TO START YOUR LUXURY CAR SEARCH.' featuring a blue Audi car and a 'Find Your Car' button. Below the advertisement is a section titled 'From the Answers blog' with a 'Facebook Fan Page' link and a small image of a cat.

- 2) Create an account

3) Start answering questions.

This you should know: before you can submit any URL's to your answers, Yahoo Answers requires you to reach "Level 2" or 250 points.

But how do I get to level 2?

There are 2 ways:

- 1) The regular method
- 2) Cheating

The regular method

Browse through the questions and try to answer them as good as you can. For example:

The screenshot shows a Yahoo Answers question interface. At the top left is a red square icon. To its right, the text "Open Question" is displayed in green. Further right is a link "Show me another »". The main question text is "When did Australia go from pounds to dollars ?" in bold black font. Below the question, it says "7 minutes ago - 4 days left to answer." and a "Report Abuse" link. A blue button labeled "Answer Question" is centered below the question. At the bottom, there is an "Action Bar" with a star icon, the text "1 Interesting!", an "Email" icon, and a "Save" icon.

You can do some research and if you are lucky, this person will vote your answer as the best, which will earn you 10 points. If he doesn't, you still earn 2 points for answering this question.

Pretty easy, right? Well, there is a small nuance: you can answer only 40 questions a day, so it might take you 2-4 days to reach Level 2. But you can also cheat!

Cheating

You can create 7-8 Yahoo Answers accounts and start asking random questions like: "who played the vampire in Twilight?", "Who Is the author of War and Peace?", etc. Then you **wait 6-7 hours** and start answering these questions with your main account. Wait 30 minutes – 1 hour and then choose your answer as the best.

Cheat at your own risk!

Ok, now you have a fully functioning account that allows you to post URL's

Let us build a Wordpress Blog that converts visitors into Buyers =>

I won't show you how to install a blog, because there is plenty information around on the Internet.

Here are some criterias your blog must meet:

- 1) The theme should be simple and narrow
- 2) Choose a theme from your niche. If you promote Iphones, you could use a theme with white, blue, black or silver colors; if you promote a face crème: white, blue or maybe green should dominate. Show some creativity!
- 3) Make it look good (you don't have to make it into a masterpiece, although some effort is required)
- 4) It should have PLR articles (it has to look like this blog has quality content)

Here is an example:

Note: This website was made as an example. I'm not actually using it

I would use this Wordpress Theme (it's free by the way) to promote an Iphone, EVO 4g or other technology offers.

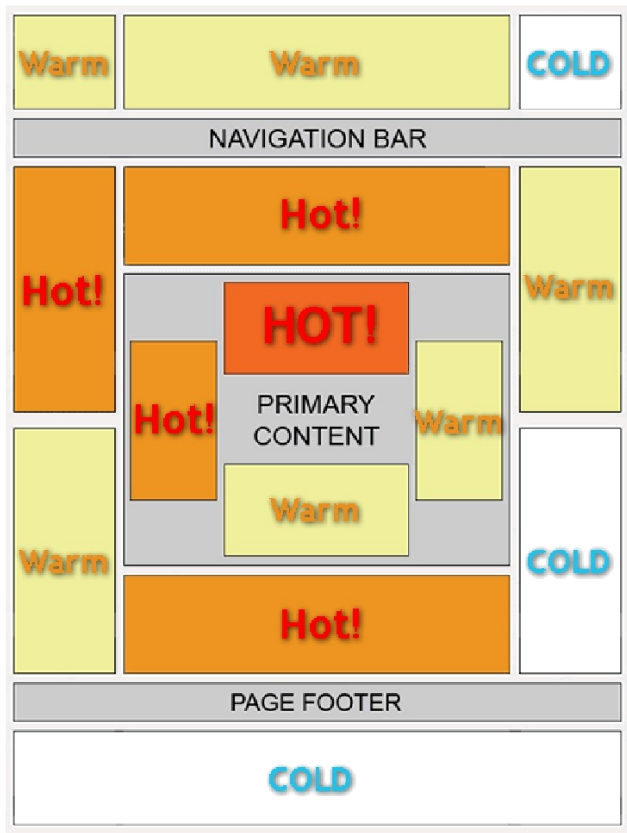

I've added only 2 articles, but you should go with 10-15. But that is not all! We want to sell our product and that's why we need to put some affiliate links and banners.

Affiliate links in the articles

Do not overuse them. Put 1 in the beginning, 2 in the body, 1 in the end.

Banners

Banners work really well for me, because people like images. But where do we put our banners? Here is a little tip for you: use Heat Maps.

The Heat map shows that a banner above your content will bring your more results, but sometimes I place my banners on the left sidebar. It 's a matter of taste.

Banner above the content:

Banner on the left sidebar:

In this case, I must admit, to put a banner above the content is much better.

3) Start answering questions:

Now go to Yahoo Answers and get questions that are related to Iphones, EVO 4G or other smartphones, etc.

A little tip: if you want to be number one to answer, use the Refine search

How to answer questions?

- 1) Find a question that is related to your niche
- 2) Try to search an article on your website that answers this question
 - a) If you have an article, write something like this:

Example:

Hey!

There are multiple ways to get better at public speaking:

- 1) *Practice in front of a mirror. Here is an article that might give you some tips: www.yourwebsite/your-article*

2) *Join a debate club. This is a great way to get better at public speaking. I was always very shy, but after a few weeks of hardcore exercises, I've improved a lot in almost all areas of my life.*

b) If you couldn't get an article, then get one and put it in your blog.
Afterwards answer the question as discussed above.

That's all there is to it. One thing you should remember:

Eventually Yahoo Answers will disable your account. Your job is to hold on as long as you can, without appearing as a marketer. This technique is VERY powerful so don't let it go to waste.

Conclusion

I've shown you how to use YouTube, Forums, Yahoo Answers and Quantcast to promote your CPA offers. Using the techniques above, you can easily make \$50-\$200 a day without breaking a sweat.

Now it's up to you to use these methods and benefit from them.

To your success,
